WELCOME TO PROJECT S.O.A.R.

The goal of Project S.O.A.R. is to provide a safe, sober, and responsible environment to recovering alcohol and substance abusers which will support recovery.

The information contained in this Resident Handbook will serve to introduce you to Project S.O.A.R., its staff, its expectations in terms of rules and responsibilities and the services which are available to you.

Project S.O.A.R. believes in a 12-Step Plus Approach. This 12-Step Plus Approach combines:

1. A supportive, structured, monitored and accountable sober living environment.

2. Attendance at specific meetings within the adult residential community that are necessary to build an effective recovering community who are willing and able to honestly support each other in the difficult task of recovery from addiction, mental health problems, and anti-social behaviors. These meetings include an in-house 12-Step meeting, a Relapse Prevention Support Group Meeting, and a Community Meeting (Double Trouble Meeting for those requiring medications).

3. Attending appropriate 12-Step Meetings in the community outside of the adult Residential community. This includes Double Trouble Meetings for residents with mental health problems, especially those requiring medications.

4. Attending counseling or other forms of treatment needed for you to:

   A) get accurate information about addiction, mental health problems, and antisocial behavior

   B) learn the specific thinking, feeling management, and behavioral skills needed to advance in your recovery, avoid relapse, and

   C) develop the life skills that will enable you to lead a rewarding drug free life, via linkage to outside providers and active involvement in the recovering community.
CRITICAL RULES

Project S.O.A.R. has a number of critical rules which result in immediate corrective discipline up to and including immediate termination from the residence. These critical rules are:

1. **ALCOHOL:**

   There will be no possession, sales, or use of beverages containing alcohol within the adult residential community.

2. **PRESCRIPTION DRUGS:**

   There will be no possession, sales, or use of any prescription drug within the adult residential community that has not been registered with the Housing Director for monitored self-administration.

3. **ILICIT DRUGS:**

   There will be no possession, sales, or use of any illicit drug within the adult residential community.

4. **SEXUAL HARASSMENT AND ACTING OUT:**

   There will be no flirting, sexual remarks, sexual harassment, romantic involvement or sexual acting out with another resident or visitor.

5. **BARS:**

   No Project S.O.A.R. resident may enter a bar for any reason or be present in any situation where alcohol or illicit drugs are being used or have been used. Bars are not conducive to recovery and are often powerful triggers for craving and relapse.

6. **VIOLENCE:**

   There will be no violence or threat of violence in the adult residential community or by any resident outside of the community grounds. Violence or the threat of violence will result in immediate discharge.
7. **USE OF DRUGS:**

   a. There will be NO use of mood-altering drugs in the adult residential community, nor by any resident in the community—either on or off the grounds.

   b. Using alcohol or other drugs will result in immediate discharge and the resident will be required to go to detoxification.

   c. If a resident refuses to enter detoxification, the resident must leave the grounds.

   d. After detoxification is completed, the resident must schedule an assessment for readmission. If detoxification is unavailable, the resident may be put on meeting restriction (where the resident is required to go and attend back to back meetings for three days and only return to sleep) or be required to leave for 36 hours and attendance of AA/NA verified.

8. **PORNOGRAPHY:**

   a. Sexually Explicit Material: Sexually explicit pictures, magazines, reading materials or movies are not allowed at Project S.O.A.R.

   b. Room Inspections: Staff will periodically complete room inspections, and sexually explicit materials, if they are found, will be confiscated and destroyed.

   c. Child Pornography: Any resident found with child pornography (or any sexually explicit material containing images of children or models who look like children) will be subject to corrective discipline up to and including being asked to leave the sober community. The material will be confiscated and may be destroyed or turned over to the police for investigation.

   d. Violent Sexually Specific Material: Any resident found with sexually specific material that depicts graphic acts of violent sexuality (such as rape or sadomasochistic sexual behavior) will be subject to corrective discipline up to and including being asked to leave the adult residential community. The material will be confiscated and may be destroyed or turned over to the police for investigation. If any “snuff” films or pictures (sexually explicit acts involving the murder or mutilation of a person during the sexual act) are discovered, they will be confiscated and turned over to the police for investigation.

Residents should bring any medical, eye, or dental problems to the attention of Administration. Residents may utilize any medical doctor they choose but “doctor shopping” (finding multiple doctors for the same prescription or finding doctors who will prescribe mood altering drugs without proper medical justification) for medications is an immediate discharge.

13. **Medications**

A. If a resident is on medication prescribed by their personal physician or dentist, the medication will have to be documented in Administration.

B. If the medication is on the Project S.O.A.R. List of Restricted Medications it will have to be secured in the resident’s locker in the common rooms and obtained with the assistance of staff.

C. Failure to have a medication logged in with administration, (this includes refills) is grounds for corrective discipline up to and including immediate discharge.

D. Residents must advise prescribing doctors that they are addicts in recovery and may not doctor shop (doctor shopping means finding more than one doctor to prescribe the same medication for the same injury or illness and as stated in #12 above).

   C. Inform you when you are lapsing into the use of addictive or antisocial behavior and request that you return to the use of sober and responsible behavior.

   D. Enforce the rules necessary to protect the safe and sober environment of the community.

   E. Coordinate the activities of the staff with the leadership of the sober community (The Residents’ Council and the Senior Resident of each living unit).

   F. You are expected to follow the instructions of the Project S.O.A.R. as long as they are consistent with the goals of protecting the safe and drug free environment, encouraging progress in personal recovery, maintain order and stability within the community, and stopping behavior that is disruptive, harmful to self or others, or presents a negative image of Project S.O.A.R. to the surrounding community.

2. If a staff member or trainee gives you an instruction and you do not agree with it, it is important that you immediately obtain a grievance form, fill it out to present your concerns to the staff member in writing. If the staff insists that you follow the instructions, you must do so. It is an important responsibility for you as an active resident to bring these situations to the attention of management by filing a grievance as soon as possible after the incident.

3. If you feel that following the instruction will cause harm to yourself or others, you may disobey the instruction but only after filling out a grievance form in writing. You will be placed on unit restriction immediately, a restriction notice will be written, and a member of the senior staff and the Residents’ Council will be assigned to review the directions given by the staff member within 24 hours and either take you off restriction if they find in your favor and schedule you to present the incident to the Residents’ Council if they find that there was not sufficient cause to refuse to follow the staff direction.
CORRECTIVE DISCIPLINE

A. Rule Infractions:

If you break two or more rules in one week, you will receive a consequence. The consequences will be issued by Administration. If a resident breaks four or more rules in a 30-day period, the resident will be re-evaluated by Administration for continued residency.

B. Grievances:

1. If a resident feels that he/she has been treated unfairly or is requesting a change in policy, the resident is to fill out a grievance and place in the official grievance box.

2. Only a director has access to the grievance box and no person grieved will be advised of the grievant’s name until the grievance is investigated.

3. All grievances will be investigated and the resident will be interviewed by a director within 48 hours of the grievance submission date.

C. In House Restriction:

D. Grievances and Policy Change Requests:

To change an existing policy or rule, the following procedure must be followed:

1. You must fill out a Grievance Slip and place it in the grievance box prior to every Thursday.

2. All policy change requests in the community will be discussed and voted upon.
3. If the community votes for the policy or rule change, it will be submitted to the Residents’ Council.

4. The Residents’ Council may approve the recommended policy or rule change by a simple majority vote.

5. If approved by the Residents’ Council, the recommended policy or rule change will be submitted to administration for the review and approval by both the Director of Housing and the Business Director. This will assure that the recommended change is both a sound behavioral practice that will not endanger the sober and responsible environment of the residence and that it will not adversely affect the finances of the sober community or violate any laws, codes, or ordinances.

6. The administration may modify any aspect of the recommended rule or policy change or veto it. The administration will communicate their reason for the modifications or veto in writing to the Residents’ Council.

RESIDENT INFORMATION

Federal law and regulations protect the confidentiality of alcohol and drug abuse resident records maintained by Project S.O.A.R.. THIS NOTICE DESCRIBES HOW MEDICAL AND DRUG AND ALCOHOL RELATED INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

General Information:

Project S.O.A.R. must obtain your written consent on separate consent forms before it can disclose information about you. Generally, you must also sign a written consent before Project S.O.A.R. can share information for treatment purposes or for health care operations. Specific information to be released is restricted to:
1. Whether or not the resident is in treatment
2. Resident diagnosis
3. The nature of the project
4. A brief description
5. A statement as to whether the client has relapsed into drug and alcohol abuse and the frequency of such relapse

Federal law permits Project S.O.A.R. to disclose information without your written permission:
1. Pursuant to a Letter of Agreement;
2. For research, audit or evaluations;
3. To report a crime committed on Project S.O.A.R.’s premises or against Project S.O.A.R.’s personnel;
4. To medical personnel in a medical emergency;
5. To appropriate authorities to report suspected child abuse or neglect;
6. For a good cause court order.

For example, Project S.O.A.R. can disclose information without your consent to obtain legal or financial services, or to another medical facility to provide health care to you, as long as there is a Letter of Agreement.

Before Project S.O.A.R. can use or disclose any information about your health in a manner which is not described above, it must obtain your specific written consent allowing it to make the disclosure. Any such written consent may be revoked by you in writing.
Your Rights:
Under HIPAA you have the right to request restrictions on certain uses and disclosures of your health information. Project S.O.A.R. is not required to agree to any restrictions you request, but if it does agree then it is bound by that agreement and may not use or disclose any information which you have restricted except as necessary in a medical emergency. You have the right to request that we communicate with you by alternative means or at an alternative location. Project S.O.A.R. will accommodate such requests that are reasonable and will not request an explanation from you. Under HIPAA you also have the right to inspect and copy your own health information maintained by Project S.O.A.R., except to the extent that the information contains psychotherapy notes or information compiled for use in a civil, criminal or administrative proceeding or in other limited circumstances. Under HIPAA you also have the right, with some exceptions, to amend health care information maintained in Project S.O.A.R.’s records, and to request and receive an accounting of disclosures of your health related information made by Project S.O.A.R. during the six years prior to your request. You also have the right to receive a paper copy of this notice.

Project S.O.A.R.’s Duties:
Project S.O.A.R. is required by law to maintain the privacy of your health information and to provide you with notice of its legal duties and privacy practices with respect to your health information. Project S.O.A.R. is required by law to abide by the terms of this notice. Project S.O.A.R. reserves the right to change the terms of this notice and to make new notice provisions effective for all protected health information it maintains.

You may file a complaint to Project S.O.A.R. and the Secretary of the United States Department of Health and Human Services if you believe that your privacy rights have been violated under HIPAA. You will not be retaliated against for filing such a complaint. Violation of the Confidentiality Law by a program is a crime. Suspected violations of the Confidentiality Law may be reported to the United States Attorney in the district where the violation occurs.
